Screen-Systems

HealthCare - since 1976

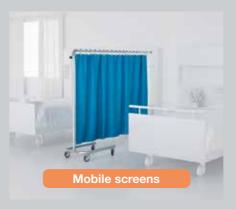

disinfectable

ropimex® HyGentle®

Product design and material combination for maximum hygiene

Product design:

Hygiene starts with the design. Corners, angles or geometries that are ill-suited for cleaning and disinfection are avoided to the greatest possible extent.

Material composition:

Cleanability and disinfectability are prioritized in the selection of the materials required for manufacturing the product. This is aimed at achieving an optimum where soiling and microbiological pollution are concerned. Porous, absorbent surfaces must be avoided.

Cleaning and disinfection:

We test and document the materials of our products in terms of their natural microbial contamination, just as we document their cleanability and disinfectability with commercially available detergents and disinfectants.

For your saftey:

ropimex® products conform to the highest safety standards. The telescopic screens including the trolley, the Vario rail system and the folding screens all bear the GS tested safety mark issued by the German TÜV (technical inspectorate).

Telescopes of the new generation

ropimex® HyGentle®: Product design and material combination for maximum hygiene

The ropimex® telescopes of the new generation are optimized in handling, cleaning and disinfection by means of seamlessly integrated mechanics and particularly smooth, hygiene-friendly surfaces. ropimex® curtains, washable and disinfectable complete the hygiene concept.

Smooth telescopic tubes and Plastics for one hygiene-friendly surface.

Bending mechanism seamlessly integrated.

Integrated stop mechanism for the curtain rings

If the curtain rings are loaded they release themselves from the eyelets of the curtains and therefore avoid injuries and damage to the system.

fixed telescope at rest

RTS models in the doctor's surgery

RTS models in the retirement and care home One telescopic screen can be used to screen off several beds, which have been previously fitted with brackets

RTS: Telescopic screen, swing-out, self-supporting

Material

ropimex® telescopic screens are made of anodised aluminium, high-quality, glass-fibre reinforced plastics. Easy to clean and to disinfect.

Model	Telescopic screen extension	Weight	Rings	Recommended curtains (see p. 22-23)
RTS 1.2	120 cm	0,5 kg	10	TCS 121, TCS 122, TCS 123, CQ 121, CQ 122
RTS 1.5	150 cm	0,6 kg	13	TCS 151, TCS 152, TCS 153, CQ 151, CQ 152
RTS 2.1	210 cm	0,7 kg	17	TCS 211, TCS 212, TCS 213, CQ 211, CQ 212

VR: Curtain rings

ropimex® curtain rings are always included with telescopic screens, telescopic arms and telescopic screen cubicles. Curtain rings can also be supplied separately. Standard colour: grey.

If they are loaded they release themselves from the eyelets of the curtains and therefore avoid injuries and damage to the system.

fold-down and swing-out

Recommended curtains (see p. 22-23)

Trevira®CS Bioactive

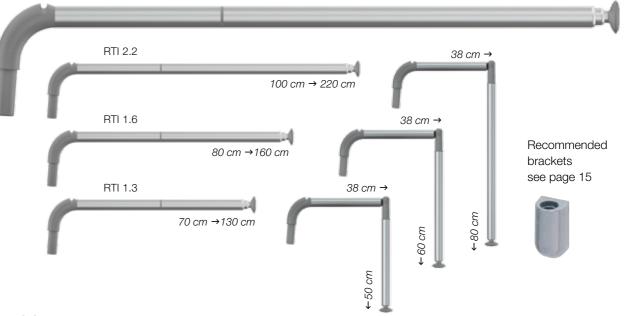

RTI models in the multi-bed room and on the intensive care unit.

One telescopic screen can be used to screen off several beds, which have been previously fitted with brackets

RTI: Telescopic screen, fold-down and swing-out, self-supporting

ropimex® telescopic screens are made of anodised aluminium, high-quality, glass-fibre reinforced plastics. Easy to clean and to disinfect.

Model	Telescopic screen extension	Weight	Rings	Recommended curtains (see p. 22-23)
RTI 1.3	130 cm	0,6 kg	10	TCS 121, TCS 122, TCS 123, CQ 121, CQ 122
RTI 1.6	160 cm	0,7 kg	13	TCS 151, TCS 152, TCS 153, CQ 151, CQ 152
RTI 2.2	220 cm	0,8 kg	17	TCS 211, TCS 212, TCS 213, CQ 211, CQ 212

VR: Curtain rings

ropimex® curtain rings are always included with telescopic screens, telescopic arms and telescopic screen cubicles. Curtain rings can also be supplied separately. Standard colour: grey.

If they are loaded they release themselves from the eyelets of the curtains and therefore avoid injuries and damage to the system.

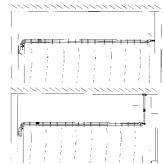

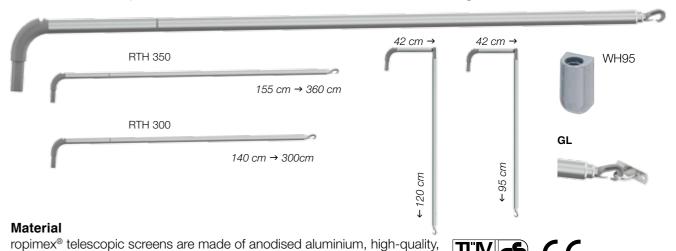

If the GL cannot be mounted, e.g. on the window, a ceiling mount is used

RTH: Telescopic arms, with hooks fold-down and swing-out

Model	Telescopic screen extension	Weight	Rings	Curtains	Wall mount
RTH 300	300 cm with hook at the distal end	1,0 kg	25	TCS 330	WH 95 with end support GL
RTH 350	350 cm with hook at the distal end	1,1 kg	30	TCS 390	WH 95 with end support GL

RST: adjustable ceiling mounts

glass-fibre reinforced plastics. Easy to clean and to disinfect.

Modell	Extension	Room height
RST 4	45 - 75 cm	245 - 275 cm
RST 8	75 - 135 cm	275 - 335 cm
RST 10*	110 - 200 cm	335 - 400 cm

*not illustrated

The glass-fibre reinforced polyamide disc at the bottom end of the ceiling mount is used to hold the joints of the telescopic screen cubicles and the hooks of the telescopic arms, models RTH and RTA.

Ceiling mounts Brackets

WH - Wall brackets GSH - Brackets for equipment rails

WH: Wall brackets for telescopic screens

Model		Dimensions
WH 95	Wall mounting for all telescopic screens, die-cast aluminium, concealed screws, adjustable to compensate for unevenness of the wall, colour coated, colours: white (RAL 9010), signal grey (RAL 7004)	Height 10 cm Width 6 cm
WH	Wall mounting for all telescopic screens	Height 16,5 cm Width 6 cm
WH/LA	Wall mounting for bridging service ducts up to 15 cm	Height 16,5 cm Width 6 cm
WH/F	Wall mounting with knurled thumb screw	Height 16,5 cm Width 6 cm

GSH: Telescopic screen brackets for equipment rails

Model		Dimensions
GSH/F	Telescopic screen bracket for equipment rail 25/10 mm, fixing by means of clamping screw	Height 13,5 cm Width 4 cm
GSH/N	Telescopic screen bracket for equipment rails, wall-supported, height-adjustable	Höhe 55 cm Width 5 cm
GSH/DK	Telescopic screen bracket with "double clamp" for equipment rails, height-adjustable	Height 55 cm Width 5 cm
GSH/95	Telescopic screen bracket for equipment rails, adjustable tilt	Height 10 cm Width 6 cm
GSH/V	Telescopic screen bracket for vertical tubes, max. 38 mm tube diameter, adjustable tilt	Height 10 cm Width 13 cm

Mobile screens

The mobile screen, fitted with one or two telescopic screens, is ideal for mobile screening, e.g. for corridor occupancy, in multi-bed rooms, in the outpatients department or at the gynaecology chair.

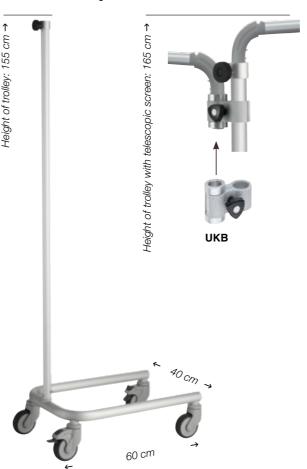

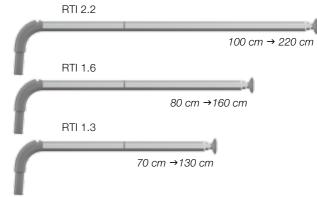

Mobile screen '95 with one or two telescopic screens in use

FG95 trolley

Model	
FG95	Trolley , 155x60x40 cm (H/D/W), 4 castors ø 100 mm, 2 of which are lockable. Aluminium anodised, glass-fibre reinforced polyamide, corrosion-resistant, disinfectable.
LA	Electrically conductive castors available for an extra charge.
UKB	Universal clamp for holding a second telescopic screen. All telescopic screens in the "RTI" series can be used in the FG 95 trolley.

We recommend the following fitout:

Model	With one telescopic screen	Extension	Curtains	
RTI 2.2	Telescopic screen, fold-down	220 cm	TCS 212, CQ 212	
Model	With two telescopic screens	Extension	Curtains	
RTI 2.2	Fold-down telescopic screen, (can only be used in the trolley, not suitable for the UKB clamp)	220 cm	TCS 212, CQ 212	
RTI 1.6	Telescopic screen, fold-down	160 cm	TCS 152, CQ 152	
RTI 1.3	Telescopic screen, fold-down	130 cm	TCS 122, CQ 122	
UKB	Universal clamp for use of a second telescopic screen, telescopic screens: RTI 1.3, RTI 1.6			

Vario rail system

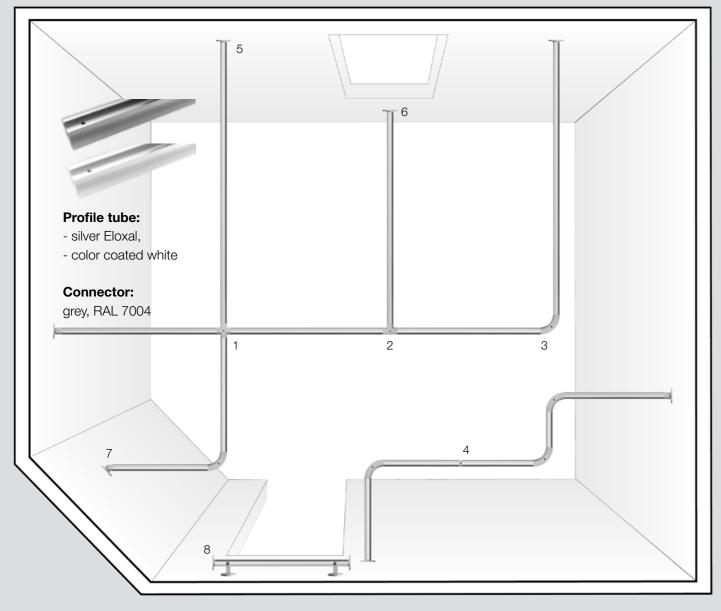

Easy ordering: A simple sketch suffices!

Simply prepare a hand-drawn, dimensioned sketch of the required room layout, enter the widths and lengths as well as the room height and the required headroom.

We will put together the complete system for you.

Curtain ring RVS/VR

Curtain ring made of unbreakable polyamide: Releases itself from the curtain eyelet if overloaded (approx. 2 kg).

Ringstopper: for fixation of a curtain ring at the beginning or the end of the rail.

Silicone cover profile

RVS/AP

With the RVS connectors, you can create cabs as you wish

Cross-connector (RVS/KV)

T-connector (RVS/TV)

Corner solutions without sharp edges: with the curved connector RVS/BV (radius 60 mm)

Change later: simply disconnect the profile tube and install the connector of your choice, e.g. linear connector RVS/LV

RVS-Wall connections - for every requirement

Free-standing end: End cap RVS/EK stops the curtain.

Straight at the wall: Wall connector RVS/WA

Sloped walls, acute angles: the Vario wall connector RVS/WAV compensates for and levels out asymmetries up to 180° and length differences up to +/- 5 mm.

Flexible to the ceiling - RVS ceiling connectors

Mounted directly under the ceiling: with ceiling bracket RVS/DH (distance from top of ceiling to bottom of rail approx. 6 cm).

Suspended at headroom height: with the adjustable ceiling mount (+/- 20 mm) RVS/DS.

For free-standing end RVS rails: adjustable double ceiling mount (+/- 2cm) RVS/DDS.

Easy above the lintel: e.g. at windows or doors using the wall connector RVS/WAS

Anchoring on profile rail:

possible along the whole length by means of square nut; for adjustable ceiling mount RVS/DS or with ceiling bracket RVS/DH. Max. spacing: 2 m.

Anchoring via all connectors:

Standard threaded hole for screwing in the adjustable ceiling mount RVS/DS or the ceiling bracket RVS/DH ensures firm support.

Curtains

Trevira®CS Bioactive

ropibel®

Flame-resistant curtains can save lives!

ropimex® multifunctional textiles have more than proven themselves in practical application - whether here with us or in Tahiti or even Yakutsk.

We only use flame retardant qualities that will meet even the most stringent hygiene requirements. The longevity of our materials meanwhile guarantees a most cost-effective price-performance ratio.

Available in 10 colours

TCS: ropimex®-curtains made of Trevira®CS Bioactive have been tried and tested for 20 years

Permanently flame-retardant and anti-microbial

- 100% Polyester, permanently flame-retardant
- the fabric meets fire class B1 as per DIN 4102-1 and B-s1 d0
- with the fire resistance indelibly anchored in the molecular structure
- Trevira®CS Bioactive is permanently anti-microbial
- permeable to daylight, ideal if there are several partitions in a room
- light-fast, dimensionally stable, crease-resistant, long service life
- certified to Oeko-Tex standard 100
- fabric weight: ca. 115 g/m²

PLiO in hospital

Ideal room divider

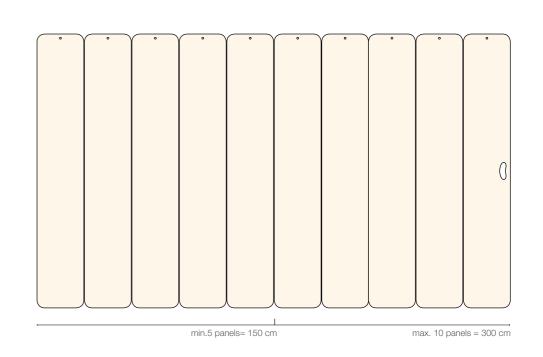

PLiO® is quickly usable and just as quickly pushed together again to save space.

PLiO® is a flame-retardant folding curtain that was developed for hypersensitive facilities. PLiO® is ideal for users whose hygiene concept opposes the use of classic curtains that need to be regularly cleaned, usually by external service providers. PLiO® is quickly usable and just as quickly pushed together again to save space, and that without expanding again. The surfaces are smooth and suitable for all commercially available disinfectants. The transitions between the individual panels (connecting joints) are also smooth and flush. This helps to avoid undesirable grooves where dirt or germs could accumulate.

Curtain rings

Semi-open PLiO® curtain ring for curtain systems that are permanently installed and hence not freely accessible, e.g. ropimex® RVS

Ringstopper for fixation of a curtain ring at the beginning or the end of the rail.

In combination with the RVS Rail system generally white powder coated (see page 19-21)

	Coverage
5-panelled	150 cm
6-panelled	180 cm
7-panelled	210 cm
8-panelled	240 cm

Satisfied customers all over the world

Since 1976, ropimex® has been busy finding solutions to protect the privacy of the sick and those in need of care.

The telescopic screens of the early years are still in use today. From them a system developed, whose diversity, use and combination options provide a suitable solution for each and every customer.

All these properties, top advice from authorised stockists and the fastest possible delivery have secured ropimex® more than 80,000 satisfied users to date, all over the world.

For your safety

ropimex® products conform to the highest safety standards.

The telescopic screens including the trolley, the Vario rail system and the folding screens all bear the GS tested safety mark issued by the German TÜV (technical inspectorate).

ropimex® curtains made of Trevira®CS pass every fire test worldwide and are tested and certified to the Öko-Tex standard 100 Europe-wide.

ropimex® Privacy Systems - 43 years of experience in designing medical inventory for hospitals, therapy centers and care facilities. Our products meet the regulatory requirements for medical devices.

The systems are designed so that a patient zone / intimate zone can be created for virtually any existing condition - stationary or mobile.

ropimex® privacy systems are the customizable accessories for medical devices such as patient beds, treatment couches and treatment chairs in medical facilities.

ropimex® privacy systems are compliant with the Swiss Privacy Policy, which requires confidential handling of patient-related data. These patient-related data also include explicit discussions between patients and patients and the preservation of privacy in treatment and patient care.

Fabric sample cards

Do you need a fabric sample card?
