Orthopaedic extension device for orthopaedic operations and traumatological treatment of fractures.
Code 60290

Leg board with cushion (Ø20 mm).
Code 61120110

Orthopaedic attachment clamp (Ø20 mm). Code ES106

Tilting tractor for orthopaedic attachment (Ø20 mm). Code 60291

Extension bar accessory rail. Code ES15334

Scandia foot control unit, three programmable functions. Code 60270

01.2012
This competitive selection of accessories is designed to complement operating tables in surgical procedures. These high-quality accessories ensure the tables to be suitable for many specialized procedures. All materials and components used have been carefully selected and manufactured. The safe and easy fixing and ergonomic design provide efficient and time-saving surgical process. The well-formed surfaces provide comfort and safety for the patient.

Most of Lojer Accessories are made for standard EU side rails (10 x 25 mm), so they are suitable for any Operating Table Brand.

**SCANDIA MATTRESSES**

Visco elastic Foam (VEF), or memory foam, has an open cell structure that reacts to body heat and weight moulding to your body and helping to relieve pressure points and thereby reducing the risk of pressure sores. Thickness 75 or 120mm, velcro attachment.

Standard moulded mattresses are made from integral skin polyurethane and have no seams or joins, making them easy to clean reducing the incidence of "hospital acquired infection". They offer excellent patient support and are fully flame retardant, anti-static and contain no latex. Thickness 65 mm, velcro or “mushroom” attachment (please specify in order).
Padded Leg and Body strap, wide. Code 10464
Padded strap for leg holders, code 10452
Wristclasp with strap, clamp included. Code 10270

HEAD RESTS

Adapter for special head rests, Mayfield® compatible. Code 60110
Flexible head support for ENT-, plastic and eye surgery. Code 60327. Requires adapter 60110
Headrest for neurosurgery. Code 6010335. Requires adapter 60110
Circular head cushion. Code 10333

SUPPORTS AND STRAPS

LEG RESTS AND SECTIONS

Gas spring assisted 3D soft pad stirrups, pair. Stirrups allow for easy adjustment of abduction and lithotomy while maintaining the sterile field. They enable safe and easy positioning while providing enhanced surgical site access. Code 60120. Requires clamps 60200
