

# KINOS X

Focus on your patients

**LOJER**<sup>®</sup> *For easy care*

Kinos X5

Kinos X4

Main features:

1. Can be used in prone, supine and sitting positions
2. Sturdy construction that can handle even the heaviest patients
3. Foot bar adjustment leaves hands free

Lojer Kinos X treatment table is designed for professionals working in the demanding and diverse rehab world. The Kinos X has a wide height adjustment range, making it easy to adjust for different needs. The table is now equipped with electrically raised castors as a new feature, making it incredibly easy to move around. Lojer has done a lot of testing and designing so that you can work stress-free. The Kinos X Treatment table has passed all the medical device regulation tests performed by an external testing laboratory.

**The range:**

- Kinos X5 has a 65 cm wide two-piece table-top with back section adjustment. The back section and height of the table are hygienically adjusted with foot bars on both sides of the table.
- Kinos X4 has a 55 cm wide one-piece table-top with side supports. The height of the table is hygienically adjusted with a foot bar on both sides of the table.

The back section and height of the table are hygienically adjusted with a foot bar, leaving your hands free to help and support the patient.

Lojer Kinos X treatment table is sturdy and strong with High Safe Working Load.

The upholstery material, Future, is antimicrobial by ISO-certification. The material is easy to clean and it's six time more durable than artificial leather.
